Error

INVALID_OPERATION_WITH_EXPIRED_PASSWORD

You'll see this error if your Salesforce password has expired. This error often occurs when using the old security token method of authentication. [We recommend changing your authentication to Salesforce's recommended OAuth method.](#)

Resolution

First, log into Salesforce to reset your Salesforce password.

Once updated, Salesforce will send you a new security token. *If you use the Trusted IPs in Salesforce, you do not need your security token.

Next, you'll need to log back into the connector with your new credentials.

Again, [we recommend changing your authentication to Salesforce's recommended OAuth method.](#)
