Preview

To see your form from the respondent's perspective right inside the Form Builder, click the **Preview** button at the top right of the form builder. This is a great way to test your form quickly and check out features like input validation or conditional sections. Keep in mind that some calculations will only work properly on the live version of your form

When you're finished, **click the Preview button again to return to the form builder.**

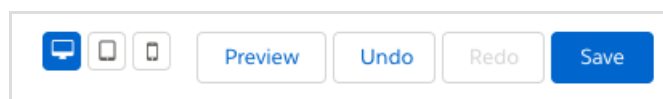

If you'd like to see it as formatted for a mobile device, click on the icon for the specific device (desktop, tablet, mobile).

Save

The Save button is at the top right of the page. When you're ready to test your form live, click **Save** and leave the Form Builder.

You may also revert back to a previously saved version in the Form Manager's **Revisions** tab.

Note: All forms that are saved are accessible by default. Once a form is saved it will be live and viewable to anyone with the form link.

Publish

Once you save your form, it is available at the public link your form in the form's **Publish** page. Learn more about your [publishing options](#).
