Introduction

We have so many features and options available to you in our form builder. Here is a list of some of our most popular features! If you'd like to know more, you can click the link under any of the feature titles.

Save and Resume

Allow your respondents to [save their forms and resume them later](#).

E-Signature

[Collect signatures from your form respondents](#). This feature requires a Premier plan or above.

Workflows

[Connect your forms to create a seamless experience for your respondents](#). You can even set up connectors on each form to collect data as your respondents proceed through the FormAssembly Workflow!

Conditional Rules

[Conditionally show or hide fields, sections, or even pages](#) of your form based on how your respondent selects on a multiple choice field.

Autosuggest Menus

[Upload a CSV file containing picklist options to create a large, searchable picklist](#). You can also use columns to prefill

subsequent fields based on the selection your respondent makes in the Autosuggest Menu. Requires Premier plan or above.

Dynamic Picklists

Pull values in from Salesforce to [create a dynamic, searchable picklist in your form](#). Requires an Enterprise or Compliance Cloud plan.

Menu Dependencies

[Create parent and child dropdown menus](#) to have your respondents' selections in the first field change the available options in the second field.

Google reCAPTCHA

[Add reCAPTCHA to your forms](#) to help prevent spam submissions and add extra enforcement to your required fields in your form.

PDF Generator

[Download PDFs of your responses](#), [send a PDF of the response through email notifications](#), and [send PDFs to Salesforce](#). Requires a Premier plan or above.

Respondent Authentication

[Require that your respondents log in before filling out your forms](#). Available options include SAML, CAS, LDAPS, and Salesforce Communities authentication. Requires an Enterprise or Compliance Cloud plan.
