Overview Requirements Accessing the Admin Dashboard Licensing & Usage Adding a User User Permissions Deactivating a User Editing a User Restoring a User Changing/Replacing an Account Admin

# Related Articles

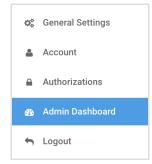

As an administrator of your FormAssembly instance, you can add, deactivate, restore, or edit users. You are also able to set and refine the permissions available to your users.

#### Requirements

- Must be part of an Essentials plan or above.
- Administration permissions must be enabled for your user account.

#### Accessing the Admin Dashboard

To perform the tasks below, you will need access to the Admin Dashboard. This can be found by going to the dropdown menu next to your name, at the top of the FormAssembly app. From here, you'll be able to select "Admin Dashboard".

## Licensing & Usage

The Licensing & Usage page displays information about the licenses and add-ons available to your FormAssembly instance, and usage information for permission packages and Advanced Document Generation.

Access this page by selecting User Management | Licensing on the left-side menu.

## Adding a User

1. On the left-side menu, select User Management | Add New User

	PERMISSIONS	DETAILS	
Accou	nt		
JSERNAN	IE *		USER LOGIN METHOD
			FormAssembly -
Contac	et		
FIRST NA	ME*		LAST NAME *
EMAIL AD	DRESS *		PHONE NUMBER
CONTACT	INFORMATION		
ALTERNA	TE CONTACT NAME		ALTERNATE CONTACT EMAIL ADDRESS
	TE CONTACT NAME	'n	ALTERNATE CONTACT EMAIL ADDRESS
Compa		'n	ALTERNATE CONTACT EMAIL ADDRESS

- 2. Select a login method from the following User Login Method dropdown options:
  - **FormAssembly**: The standard FormAssembly account login method uses your FormAssembly username and password.
  - SAML: Uses your configured SAML identity provider as the login method.
    - To configure SAML for your instance, refer to our SAML authentication article.
  - **LDAP**: Uses your LDAP (or Active) Directory as the login method.
    - To configure LDAP for your instance, please open a case with FormAssembly Support and refer to our LDAP authentication article.

**Note**: If an Instance Login Method is configured to an option other than "Manage via user's settings", the User Login Method will be locked to the option set on the Security page. For more details, refer to the Instance Login Method article.

- 3. Fill in the Contact and Company Information sections.
- 4. Open the **Permissions** tab to add user permissions. To learn more, continue to the User Permissions section below.
- 5. Click Save User at the top of the page to finalize user creation.

6. After the page refreshes, click **Send Welcome Email** to send an email to the user allowing them to create a password for their account. Once completed, the user can use the application immediately.

**Note**: The link within the welcome email expires after 72 hours. Click **Send Welcome Email** again to send a new email to the user, or instruct the user to select "**Forgot Password**" on the login page.

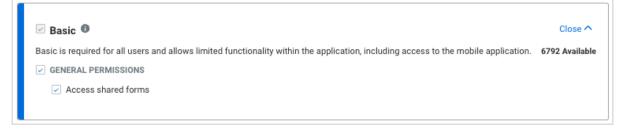

#### **User Permissions**

To add, remove, or edit user permissions, follow these steps.

- 1. On the left-side menu, select User Management | All Users
- 2. Locate the user within the **All Users** list.
- 3. Select the user and navigate to the **Permissions** tab.

6. Selecting the checkbox on a Permission Package will also apply all related permissions to the user. You can then uncheck any permissions you would like to remove.

#### Deactivating a User

#### Note:

- Forms belonging to a deactivated user will no longer be available, and the application will no longer accept response submissions for those forms. You must move the forms to another active user before deactivating the owner.
- If the user to be deactivated is a Collaborator on a form or workflow, remove the user from the sharing options on the form or workflow before deactivating the account, otherwise issues may occur with the related form/workflow.
- A deactivated user may no longer log in and access their data.
- 1. On the left-side menu, select User Management | All Users
- 2. Locate the user within the **All Users** list or through the Search.
- 3. From the **View User** drop-down menu in the Actions column, select **Deactivate User**. This opens the **Confirm User Deactivation** modal.

n	Confirm User Deactivation	ES
n	You have chosen to deactivate a user. Are you sure you want to continue?	em Bas
L	REASON FOR DEACTIVATION	l
l	Cancel	

4. If the selected user does not own a form, enter a reason for the deactivation and click Confirm.

# If the selected user is a form owner, select whether to transfer the user's forms to another user.

**Note**: Forms belonging to a deactivated user will no longer be available, and the application will no longer accept response submissions for those forms. You must move the forms to another active user before deactivating the owner.

#### Option 1 - Don't Transfer Any Forms

	Confirm User Deactivation
	er you have chosen to deactivate still owns forms. Please note that any forms ected for transfer will be permanently deleted and become inaccessible.
O Yes, I	GN FORMS? would like to transfer all forms owned by this user to another user elete all forms and associated response data owned by this user
REASON	FOR DEACTIVATION

- Select "No, delete all forms and associated response data owned by this user".
- Enter a reason for the deactivation and click Confirm to complete the user deactivation.

#### Option 2 - Bulk Transfer Forms to a New Owner

**Note**: This bulk transfer process transfers all forms from one user being deactivated to another user. You cannot pick and choose forms to transfer or divide ownership among several new owners using this method. If you would like to transfer ownership more granularly, please see the Form Administration article.

<b>Q</b> Please Sele	WNERSHIP TO THIS USER *	data owned by this us	er •	

- Select "Yes, I would like to transfer all forms owned by this user to another user ".
- Select a new owner from the TRANSFER FORM OWNERSHIP TO THIS USER menu.
- Enter a reason for the deactivation and click Confirm to complete the form transfer and user deactivation.

#### Editing a User

- 1. On the left-side menu, select User Management | All Users
- 2. Locate the user within the **All Users** list or through the Search.
- 3. Click Edit and proceed to make any necessary changes.
- 4. Click Apply when finished.

#### Restoring a User

- 1. Locate the user on the All Users page.
- 2. Click on the Username or select the Edit button for the desired user.
- 3. In the Details tab, click the Reactivate User link.

Once the account is reactivated, all forms and all previously received responses will become available again.

### Changing/Replacing an Account Admin

If you need to change the admin listed on your account, you can edit your existing admin's information to update it. All FormAssembly forms will then be under the new admin's account. Please make sure that your new admin has access to your FormAssembly account before leaving your organization or changing roles.

You will also need to contact your Customer Success Manager so that we can update your account information in our customer database.
