Highlights

Box and Dropbox connector add-ons are now available! Workflow users on Team plans and above can purchase the Box and Dropbox Connector add-ons to securely collect and send file uploads directly to your Box and Dropbox accounts.

Check out what's new:

- **Seamless Integration:** Send file uploads directly to your Box or Dropbox account each time a form response includes a file upload.
- **Customize the Destination:** Dynamically create folders based on form data or file information to keep things organized in your Box or Dropbox account.
- **Store and pass on the file URL:** Keep track of where the file is stored by using Return Variables to pass on the file's URL.
- **Handle multiple forms with one connector:** Does your workflow use multiple forms? Use a single Box or DropBox connector to send all the file uploads to your destination.
- **Easy Error Handling:** Something unexpected occurs? Use the Error Handling tab to keep your data moving.

Get Started: To start using the Box and DropBox connectors, please reach out to your Account Manager or contact our Sales Team today. Happy connecting! ☐
