Changes & Bug Fixes

- NVDA or JAWS screen reader software can be used for form accessibility with accuracy.
 - If multiple responses were saved for a form, users will have the ability to choose which response to resume.
 - Resolved the issue causing Review Before Submit to lead to Page Not Found when published on Salesforce site or using the Rest API in Wordpress
 - User won't see a crashed page in the E-Signature page or the Review Before Submit page if the user had uploaded files without a MIME type in the form.
-
