Changes & Bug Fixes

FormAssembly Connectors:

- Resolved an issue with the Salesforce Workflow Connector where checkboxes mapped to a Salesforce field would error if no checkbox selection was made on the form
- Salesforce Workflow Connector workflow response logs show format error details
- Resolved an authentication issue with the Box connector
- Addressed an issue in Google Sheets connector where incorrect spreadsheets may be displayed in the destination spreadsheet dropdown
- Logging message improvement for missing file selection when mapping a file upload to a Google Drive connector

Other fixes:

- Optimized our *purge feature* code to prevent this feature from timing out when purging very large responses
-
