## Overview

Control access to Al-powered features for all users on your instance by using the toggles available in the Al Features section of the Security page. These controls ensure that your team's usage of Al aligns with your company's internal data and compliance policies.

Enable or disable access to:

- Al Assistant (Fai) helps users create, edit, and optimize forms through natural language prompts.
- File to Web Form converts uploaded files into editable forms.

## Manage Al Features

- 1. Navigate to the Admin Dashboard.
- 2. Click Security from the left-side menu.
- 3. Scroll to the Al Features section.

This section contains toggle controls for AI features available to your instance.

- Enable File to Web Form Access for All Users
  - o On: All users can access the File to Web Form feature and upload files to generate forms
  - off: File to Web Form is disabled for all users
- Enable AI Assistance Access for All Users
  - o On: All users can access Fai, the Al Assistant
  - off: The Al Assistant is hidden and unavailable to all users

**Note**: Each toggle applies changes instance-wide and takes effect immediately. Users are **not** notified of changes.
