Changes & Bug Fixes

- Auto Page Redirect After PayPal Payments

  - When you add a PayPal Connector step to a workflow, a Page Redirect step is now automatically added right after it. This prevents respondents from seeing errors when they click "Return to Merchant" after completing payment.

- Fixed: SAML Service Provider (SP) certificates no longer require manual updates on expiration and will now renew automatically for all new configurations after the update

  - *Note: Existing SAML configurations remain unchanged. This only applies to NEW SAML configs created after this release.*

- Fixed: The user/group search in workflow collaboration now returns the full set of expected results instead of cutting off early
