**IMPROVEMENTS**

- Workflows that reach a conditional step with no defined next step will now gracefully complete rather than getting stuck on a generic thank-you message.

**BUG FIXES**

- Fixed an issue where SAML metadata imports would fail to set the identity provider certificate when the uploaded XML contained multiple signing certificates, causing the IDP cert to appear missing in the SAML Advanced Configuration UI.
- Resolved intermittent 502 Bad Gateway errors that could occur when viewing forms, submitting responses, or accessing report pages.
- Fixed an issue where embedding a workflow on a page would cause the page to automatically scroll to the workflow section unexpectedly.
