NEW FEATURES & IMPROVEMENTS

- The licensing Usage tab now accurately reflects purchased, consumed, and available license counts.
- Exported workflow response files now include a direct link to each response record.
- Deleted workflows accessed via their default URL now show a clear "Workflow unavailable" message instead of a broken page.
- Updated help documentation links for compatibility with IL4-compliant instances.

BUG FIXES

- Fixed slowness when mapping more than 5 fields in the Dynamic Picklist modal.
- Fixed an issue preventing forms from loading in the iOS app (WKWebView).
- Fixed a JavaScript error when adding a conditional path step directly after a prefill connector in a workflow.
- Fixed an issue causing async response exports to get stuck at 99% completion.

SECURITY UPDATES

- Applied security patches

Note: FedRAMP Environment notes only apply to accounts on FormAssembly Gov Cloud Fed and DoDIL4 Plans
