BUG FIXES

- Fixed an issue where the Dynamic Picklist modal returned no results when a test value contained punctuation.
- Fixed an issue where APP customers building v2 workflows lost access to the workflow after leaving the builder.
- Fixed a crash in Atlas when editing a theme name in the Form Builder from within Workflow Builder.
- Fixed an issue where connector errors could leave responses stuck on the workflow processing page instead of redirecting respondents.
- Reverted a change that incorrectly prompted respondents for an email address when using Save & Resume on authenticated forms.
- Fixed an issue where the automatic e-signature email showed the internal form name instead of the public-facing form title.

SECURITY UPDATES

- Applied security patch

Note: FedRAMP Environment notes only apply to accounts on FormAssembly Gov Cloud Fed and DoDIL4 Plans
