NEW RELEASES AND IMPROVEMENTS

- Released Script Integrity Verification for payment forms. If a form owner uses custom scripts on a payment page, those scripts are now monitored for unexpected changes, with form owners being notified when changes are detected. [Full documentation here.](#)

BUG FIXES

- Fixed an issue where Excel workbooks could intermittently disappear from the destination list within a workflow's Excel connector, even after being successfully connected.
 - Resolved an issue that could cause asynchronous CSV exports to get stuck at 0% and never complete for some Enterprise Cloud customers. Exports now complete as expected.
